re: status of P.R. 3059, now changed to CR 320

---

In discussion with Frank Zimmerman, ODOT mapping and mileage section this afternoon, a county road number of 320 has been assigned this road, officially known as "Rivenwood Lane". This road is presently reflected in your records as # 3059, a public road.

Apparently we have bladed this road for many years, and this is how it has now become ours. It is assumed the width is 40', as shown on the plat of "Oregon Walnut Co's - Orchard No. 3" subdivision, up to a point lying easterly 1.4 chains from the southwest corner of lot 9 of said subdivision. From this point westerly, the width is indeterminate without court action regarding any prescriptive easement. Please let me know if you have any questions regarding any of the above.
